Maria Libraro

**Description**

Join the Canadian Nuclear Association (CNA) its CNA2022 Conference and Trade Show at the Westin Ottawa Hotel from February 23-25, 2022. CNA2022 will bring together industry experts to explore and advance nuclear's role as an essential partner in achieving Canada's climate targets and reaching Net Zero. Canada has pledged to phase out coal by 2030, reduce greenhouse gas emissions 40% to 45% below 2005 levels by 2030, create a net-zero electricity grid by 2035 and achieve net-zero emissions by 2050. This means that Canada will need to triple the amount of electricity it produces over the next thirty years. To address the climate emergency and meet growing energy demands, we need all available sources of clean energy – including nuclear energy.
